Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - who are they?	Budget-conscious users planning home decoration, parties, or jewelry purchases.
I'm trying to	List their outcome or "goal" the care about - what are they trying to achieve?	Plan their home, party, or jewelry needs within a specific budget.
but	Describe what problems or barriers stand in the way - what bothers them most?	They struggle to find suitable options and compare products, prices, and choices.
because	Enter the "root cause" of why the problem or barrier exists - what needs to be solved?	There are many options available, making it difficult and time-consuming to choose the right ones within their budget.
which makes me feel	Describe the emotions from the customer's point of view - how does it impact them emotionally?	Confused, stressed, and unsure about making the right choice.

Example:

I AM	I'M TRYING TO	BUT	BECAUSE	WHICH MAKES ME FEEL
a budget-conscious user	plan my home, party, or jewelry needs within my budget	it takes a lot of time to find and compare suitable options	There are many products, prices, and choices, making it difficult to select the right options within my budget.	Confused and stressed

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	I am a person planning a home interior, party, or jewelry purchase	I'm trying to manage my budget and find suitable products or services for my needs	But there are many products, platforms, and price ranges to compare	Because it is difficult to identify personalized options that fit my budget, preferences, and context	Which makes me feel overwhelmed and unsure about my spending decisions
PS-2	I am a customer looking for personalized recommendations within a fixed budget	I'm trying to get curated recommendations for products or services across different categories	But I have to search across multiple platforms and manually compare options	Because there is no single intelligent assistant that combines my budget, preferences, and contextual needs to generate recommendations	Which makes me feel that planning and choosing the right options is time-consuming and difficult
