

Project Design Phase-II Data Flow Diagram & User Stories

Date	2 October 2026
Team ID	SWTID-2026-6545
Project Name	PocketSmart AI: Your Smart Budget & Recommendation Assistant
Maximum Marks	4 Marks

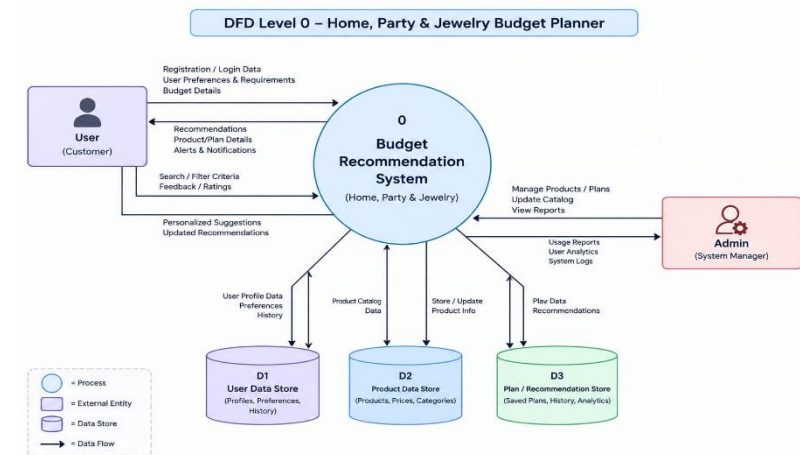

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Example: PocketSmart AI – Simplified Data Flow Diagram

Example: DFD Level 0 (Industry Standard)

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Web user)	Registration	USN-1	As a user, I can register for PocketSmart AI by entering my email and password.	I can create an account and access the application.	High	Sprint-1
	Login	USN-2	As a user, I can log into PocketSmart AI using my registered email and password.	I can successfully access my dashboard.	High	Sprint-1
	Dashboard	USN-3	As a user, I can view the available Home, Party, and Jewelry planners from my dashboard.	I can select a planner and start a budget plan.	High	Sprint-1
	Home Planner	USN-4	As a user, I can enter my home budget, room details, quantities, and preferences.	The system accepts valid home-planning inputs.	High	Sprint-1
	Party Planner	USN-5	As a user, I can enter my party budget, guest count, event type, and venue details.	The system accepts valid party-planning inputs.	High	Sprint-1
	Jewelry Planner	USN-6	As a user, I can enter my jewelry budget, occasion, style preferences, and optionally upload an outfit image.	The system accepts text and optional image input.	Medium	Sprint-2
	AI Recommendations	USN-7	As a user, I can receive AI-generated recommendations based on my budget and preferences.	Recommendations are relevant to the selected planner and budget.	High	Sprint-2
	Platform Options	USN-8	As a user, I can view suitable product or service options from supported platforms.	The result includes useful platform/source information for suggested options.	Medium	Sprint-2
	Recommendation Details	USN-9	As a user, I can view detailed recommendations including item/service information and budget fit.	I can review the recommendation details before making a choice.	High	Sprint-2
	History	USN-10	As a user, I can view my previous recommendation queries and results.	Past recommendation history is displayed for review or reuse.	Medium	Sprint-3

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
	Session & Personalization	USN-11	As a user, I can receive recommendations using my current session and relevant preferences.	The system uses available session information to personalize the interaction.	Medium	Sprint-3
	Logout	USN-12	As a user, I can log out securely after using PocketSmart AI.	My session is terminated and I return to the login page.	High	Sprint-1
