Project Name	PocketSmart AI: Your Smart Budget & Recommendation Assistant
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer’s problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ☐ Solve complex problems in a way that fits the state of your customers.
- ☐ Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- ☐ Sharpen your communication and marketing strategy with the right triggers and messaging.
- ☐ Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- ☐ **Understand the existing situation in order to improve it for your target group.**

Template:

Define CS, fit/noCS	1. CUSTOMER SEGMENT(S) CS College students & young adults (18–30) Working professionals Homemakers / families Anyone who wants to plan purchases or events within a budget (Main segment) Budget-conscious users looking for smart, personalized and convenient recommendations.	6. PROBLEM SOLUTION FIT PSF Users struggle to find the best products/services within their budget. Too many options across platforms (Amazon, Flipkart, IKEA, Swiggy, Zomato, OYO, etc.) create confusion. Hard to balance style, quality and price. Lack of personalized and context-based suggestions for different needs (home, party, jewelry). No single platform that connects multiple categories and platforms with AI help.	5. AVAILABLE SOLUTIONS AS Manual research on different shopping and service platforms. Price comparison websites / apps (e.g., Google Shopping, etc.). Individual apps for home decor, food delivery, travel, etc. Generic recommendation systems (not budget-specific or personalized). Some AI tools (but not focused on multi-category, real-time, cross-platform recommendations).
	2. JOBS-TO-BE-DONE / PROBLEMS J&B Plan home interiors, parties or buy jewelry within budget. Find the best product/service options without spending too much time. Get personalized suggestions based on my preferences and needs. Compare prices and quality across multiple platforms. Organize events or purchases easily and confidently.	9. PROBLEM ROOT CAUSE RC Lack of a unified platform for multiple categories (home, party, jewelry). No AI-driven, budget-based recommendation system. Users are overwhelmed by choices and information from different platforms. Limited personalization based on individual preferences and past behaviour. Existing tools focus on single categories, not integrated solutions.	7. BEHAVIOUR BE Searches online for product/service options. Compares prices and reviews across platforms. Looks for discounts and deals. Uses mobile or web apps frequently. Prefers quick, easy and hassle-free planning. Relies on recommendations from friends, social media or influencers.
Identify S. (or TR & EM)	3. TRIGGERS TR Seeing ads or social media posts about home decor, events, or fashion. Upcoming occasions (wedding, birthday, festival, etc.). Budget constraints or special offers/discounts. Friends or family recommendations. Desire to improve lifestyle or living space.	10. YOUR SOLUTION SL PocketSmart AI – A GenAI-powered, cross-platform recommendation system. Users input their budget, preferences and needs (home, party, jewelry) through a simple interface. Gemini 1.5 Flash Pro analyzes the data and provides personalized suggestions from platforms like Amazon, Flipkart, IKEA, Swiggy, Zomato, OYO, etc. Helps with smart planners, adaptive forms and easy comparison of options. Uses SQLite + SQLAlchemy to store user data, history and preferences securely.	8. CHANNELS OF BEHAVIOUR CH 8.1 ONLINE Website / Web app Mobile app (Android / iOS) Social media (Instagram, YouTube, etc.) Search engines (Google) 8.2 OFFLINE Word of mouth (friends & family) Print media / ads Stores / showrooms (IKEA, lifestyle stores, etc.) Events / exhibitions
	4. EMOTIONS: BEFORE / AFTER EM Before Overwhelmed / confused Stressed about budget Unsure about best options Time-consuming research After Confident & relaxed Satisfied with recommendations Feels in control of budget Happy with the final choice
